

REMARKS

Responsive to the Office Action of April 27, 2010, to which response is due by July 27, 2010, Applicant submits the foregoing Amendments to the Claims and the following Remarks.

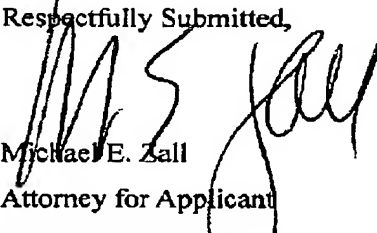

Claims 20-41 have been cancelled, without prejudice. Applicant reserves the right to file continuing applications directed to the subject matter of these claims.

Applicant has amended all the remaining independent claims (Claims 1, 2 and 19) to clearly indicate that *portions of the top surface of the second arch and portions of the bottom surface of the first arch are spaced apart from each other and have no intervening structure therebetween.*

Applicant would like to thank the Examiners' for their kind consideration at our telephone interview of June 17, 2010 wherein amendments to the claims substantially similar to those proposed herein were deemed to distinguish the presently claimed invention over the cited prior art.

For all of the foregoing reasons, claims 1-19 are believed to be allowable, and the application is believed to be in condition for allowance

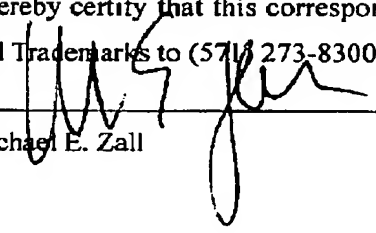

Respectfully Submitted,

Michael E. Zall
